Re.: Submission relating to the annotated agenda of the 63rd meeting of the CDM Executive Board / annex 9 (project standard)

Dear Mr. Phillips,

Thank you for your letter received on 12 October 2011, which has been made available to the Chair of Board.

On behalf of the Chair of the Board, I would like to thank you for the inputs provided on the draft CDM project standard (PS) document which was considered by the Board at its sixty-third meeting. The inputs provided in your letter were forwarded to the concerned secretariat teams working on the draft PS, draft CDM validation and verification standard (VVS), and draft CDM project cycle procedure (PCP). These inputs were considered in order to provide more clarity and consistency among these three draft documents, and the Board at its sixty-third meeting requested the secretariat to revise the drafts taking into account the comments provided by stakeholders that help improve the clarity as well as improving the consistency of the documents.

As you may be aware, the Board at its sixty-fifth meeting adopted the new PS, VVS, and PCP regulatory documents, along with an implementation plan setting out relevant activities and arrangements and their respective milestones/timelines foreseen in 2012. These documents have been made publicly available on the UNFCCC website for the use and reference of all stakeholders.

I encourage you to continue providing such valuable contributions.

Yours sincerely,

Andrew Howard
Secretary to the CDM Executive Board
