*Re: Project Developer Forum - input on industrial gases (EB45)*

Dear Mr. Enderlin,

Thank you for your letter to the Chair of the CDM Executive Board on the draft guidance on industrial gases. It has been made available to the Board and considered at its 45<sup>th</sup> meeting. On behalf of the Chair of Executive Board, I would like to inform you that the Board appreciates your view on this draft guidance. The issue of CDM project activities related to the new plants emitting industrial gases is well recognized by the Board and - taking into account its political sensitivity - is being given due priority. After consultation with the Chair of the Board the subject is now put on the agenda of EB46 and may be finalized by that meeting, of course subject to the response from Board members.

On behalf of Chair I would also like to inform you that the Board has always endeavoured to seek inputs from its stakeholders and we look forward to receive your views in the relevant areas, which can strengthen the Board's assessment of various issues.

Yours sincerely,
