*Re.: Comments on timelines for approval of requests of revision on Monitoring Plans*

Dear Mr. Enderlin,

Thank you for your letter addressed to the CDM Executive Board concerning the timelines for approval of requests of revision of Monitoring Plans.

Fundamentally a Project Developer is responsible for the contents of a PDD, including the provisions for monitoring, which of course have to be in line with the monitoring requirements of the underlying methodology. Your reference to "continuous change" is in this respect considered unjustified.

Nevertheless, the Board agrees that a swift follow up on all requests for revisions (or deviations) is of great importance for an appropriate functioning of the CDM market. Therefore, this issue is on the Board's agenda with high priority and will be discussed at the earliest possible opportunity.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Daniele Violetti', is written over a light blue horizontal line.

Daniele Violetti

Secretary to the CDM Executive Board
